MEMBERSHIP AND AFFILIATIONS

President INFORMATION COMMUNICATION TECHNOLOGY CLUB

S.Y. 2024-2025

SKILLS AND COMPETENCIES

- Proficiently diagnosing and replacing components (Motherboard, CPU, RAM, GPU, PSU, Storage).
- Expertise in building, upgrading, and tearing down various desktop and mobile computer systems.
- Advanced ability to identify, isolate, and resolve hardware and peripheral malfunctions (e.g., printers, monitors, peripherals).
- In-depth knowledge of Windows (10/11, Server), macOS, and Linux (e.g., Ubuntu, Fedora) for installation, configuration, and troubleshooting.

- Expert handling of application installation, driver updates, and configuration across multiple platforms.
- Experience with setting up, configuring, and maintaining basic network devices like routers, switches, and access points.
- Expertise in cable management, network cabling (crimping and testing Ethernet), and connecting diverse peripherals.
- Exceptional ability to approach problems logically, hypothesize potential causes, and systematically test solutions to achieve rapid resolution.
- Ability to translate complex technical jargon into clear, easy-to-understand language for non-technical users.
- Ability to work cooperatively with fellow technicians, escalate issues correctly, and share knowledge effectively.
